 4 - Green Wood Star Very Auspicious

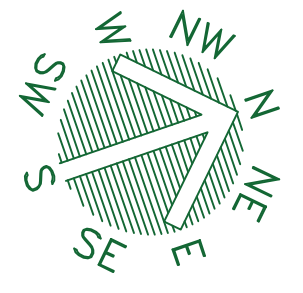

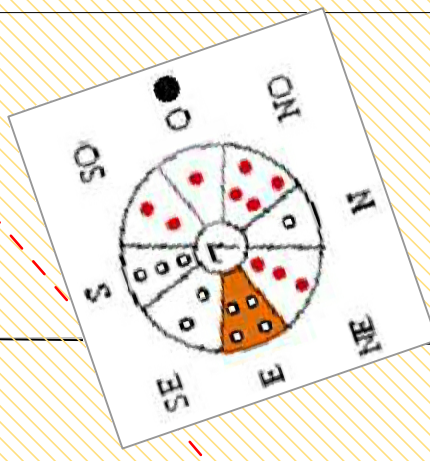

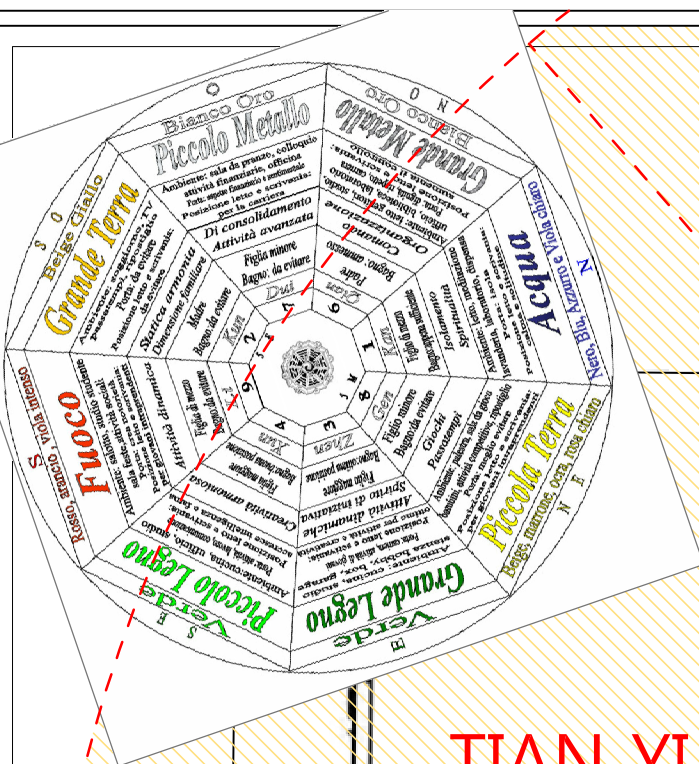

Mountain Star: 8  
 8 - White Earth Star Auspicious

Match Family Member: claudio gabana Wood Bad Luck

Match Room Location: Front Door Rings Health, Prosperity and Success Colour Matching: Auspicious

Instructions: The Geomantic Chart is based on the "Flying Star" Feng Shui theories. You first need to select the Facing direction of your House (one of the 24 directions), by clicking on the background Lo Pan design. Then, select the Building Date of your House, to set the Earth and Cycle. The screen will then display the Flying Stars for your House. The three pairs of numbers for each location determine the Fortune. For each location, the Fortune for that location will be displayed in the column to the left of this help dialog. The Match Family Member Pick list allows you to check the Fortune for a given person in the selected location. The Match Room Location pick list lets you check whether the location is auspicious for any given Room. The "Compare" pick let lets you see the effect of different Years on the Flying Star readings for your House. The "Energy Cycle" button in the top toolbar displays the Earth Base Energy Cycle for the House.
